Subject: Route 171/134 site

We have worked with 1 of a Kind Landscape and have come up with a proposal for replanting the trees at our Shell location located at 600 Hampton Hwy. You should have received these plans today on February 2. We would like for the county to consider these plans for the replanting of the trees. Please give me a call if you have any questions or need anything further. Thanks for your help.
